A Lesson Worth Enshrining.

1st A lesson in itself sublime,
A lesson worth enshrining
Is this: I take no note of time
Save when the sun is shining."
These motto words a dial bore.
And wisdom never teaches
To human hearts a better lore
Than this short sentence teaches;
As life is sometimes bright and fair,
And sometime dark and lowly.
Let us forget its toil and care,
And note its bright hours only

2d

There is no grove on earths broad chart,
But has some bird to cheer it:
So hope sings on in every heart,
Although we may not hear it.
And if to day the heavy wind
Of sorrow is oppressing,
Reliance tomorrows sun will bring
The weary heart a blessing.

3d. For life is a ——— —

We bid the joyous moments haste,
And then forget their glitter;
We take the cup of life and taste
No portion but the bitter;
But we should teach our hearts to learn
Its sweetest drops and strongest
And pleasant hours should ever seem
To linger round us longest:

4th For life is sometimes
The darkest shadows of the night Are just before the morning;
Then let us wait the coming light. All bodeless phantoms scorning
And while we're passing on the tide Of times fast ebbing river
Lets pluck the blossoms by its side, And bless the gracious Giver.
As life is sometimes a a,

All the world seems sad and dreary.

} There is no bright hours for us. Jan 20 1865
